Universal Weather and Aviation, Inc.
("Universal")
Application for Section 214 License

Number 9. This application is entitled to streamline processing under Section 63.12 of the Commission's Rules 47 C.F.R. 63.12. This application qualifies for streamlined processing for the following reasons: (1) Universal is not affiliated with a foreign carrier on any route for which authority is sought; (2) Universal is not affiliated with any dominant U.S. carrier whose services it seeks to resell; and (3) Universal is not requesting authority to resell services to countries not previously authorized for service by the Commission.

Number 10. Universal is not applying for the authority to provide switched services over private lines pursuant to Section 63.16.

Number 11. Universal certifies that it is not a foreign carrier nor is it affiliated with a foreign carrier.

Number 12. Universal does not seek to provide international telecommunications services to destinations where: (1) Universal is a foreign carrier in that country; (2) Universal controls a foreign carrier in that country, (3) any entity that owns more than a 25% interest in Universal, or control Universal, controls a foreign carrier in that country; or (4) two or more parties own, in the aggregate, more than 25% of Universal and are parties to, or the beneficiaries of, a contractual relationship that affects the provision or marketing of international basis telecommunications services in the United States.

Number 13. Is not applicable; Universal is not affiliated with any foreign carrier on any of the routes which Universal proposes to provide service in this Application.

Number 15. Pursuant to Section 63.18(d), Universal has not previously received Section 214 authority from the commission.

Universal is applying for authority to operate as a resale carrier pursuant to the terms and conditions of 63.18(e)(2) of the Commission's Rules. Universal is also applying for authority to operate pursuant to the terms and conditions outlined in 63.18(e)(3) of the Commission Rules. Through point of service activation authority gained from Inmarsat Limited and the Section 214 License, Universal will configure Satellite Data Units to operate through assigned Global Earth Stations in which Universal has contract pricing established with an associated operator. The operator will then bill Universal for the usage and in turn, Universal will re-bill the end user. Universal certifies that it will comply with the terms and conditions contained in Section 63.21 and 63.23.
